SUMMARY

I am a dedicated and energetic individual with a passion for continuous learning and personal growth. My ability to quickly grasp new concepts, coupled with my extensive knowledge of multiple programming languages, empowers me to tackle real-world applications effectively. I thrive in independent settings, driven by self-motivation to overcome challenges and strive for excellence. This opportunity excites me as it allows me to further expand my skills and advance in my career.

EDUCATION

2022 - Present
Tambaram

Bachelors in Engineering - Computer Science & Engineering Internet of Things
Sri Sairam Engineering College

2009 - 2022
Gopalapuram

School Education
DAV Girls Senior Secondary School

EXPERIENCE

02/2024 - 03/2024
Online

Intern
Prodigy Infotech

"Providing World Class E-Learning Experince with Real world Internships"

- **Internship Experience:** Prodigy Infotech - Web Development (1-month)
- **Key Skills Acquired:** CSS, HTML, and JavaScript
- **Hands-on Projects:** Successfully created and completed 4 distinct web development projects to reinforce learning

05/2024 - 08/2024
Online

Industrial Trainee
Intel

"We create world-changing technology that improves the life of every person on the planet."

- **Internship Experience:** Intel Unnati Industrial Trainee - Android App Development (3 months)
- **Key Skills Acquired:** Android App Development with Kotlin, Jetpack Compose Framework, Firebase Integration
- **Hands-on Projects:** Designed and developed a mobile application to provide seamless access to various services like transportation, education, finance, and health

06/2024 - 07/2024
Online

Intern
MindfulAI

"Redefining everyday through Intelligent Realities"

- **Internship Experience:** Mindful AI - Web Development Internship (1 month)
- **Key Skills Acquired:** HTML, CSS, JavaScript, Creative Skills
- **Hands-on Projects:** Analyzed and provided recommendations for improving the Mindful AI website, implemented local changes to demonstrate the proposed enhancements
- **Technical Skills:** Implemented design and development skills to enhance the user experience and functionality of the website

SKILLS

C | Python | Java | HTML | CSS | JS | SQL Basics | MongoDB | Express JS | React JS | Node JS | Kotlin | Android App Development | UI/ UX | Design

PROJECTS

ZERAORA - Contactless Interaction Application

Designed and developed a virtual mouse and keyboard application using Python, leveraging libraries like MediaPipe, OpenCV, and PyAutoGUI

- Implemented computer vision-based object detection and tracking using OpenCV to simulate mouse movements and keyboard inputs
- Utilized Python to integrate the various components, enabling seamless interaction between the virtual mouse and keyboard with real-world devices, with potential applications in contactless kiosks and other post-COVID solutions

EZZY - Integrated Services Application

The EZZY application aims to simplify daily tasks and provide convenient access to essential services, improving the overall quality of life for common people.

- Developed a mobile application that enables users to access various services like transportation, education, finance, and health with just a few clicks.
- The application alllows allows users to register and store their data using Firebase, and features a modern and intuitive interface designed using the Jetpack Compose Framework.

CHROMA - Envision Independent Living

Chroma is a mobile application designed to assist individuals with visual impairments by providing real-time color detection, object recognition, and text reading capabilities through machine learning and OCR technologies.

- Utilizing the smartphone's camera, "Chroma" leverages TensorFlow Lite for deep learning, Google ML Kit for OCR capabilities, and the Text-to-Speech function to convert detected text into spoken words.
- The app integrates with Android Studio and Jetpack Compose to create a user-friendly interface, making it accessible for users to navigate their surroundings independently.

VOLUNTEERING

Treasurer

IEEE Eta Kappa Nu - Nu Eta Chapter

09/2024 - Present

I dedicated my efforts to organizing events that directly benefited both school and college students. It was incredibly rewarding to witness the positive impact our initiatives had on their lives, as we helped enhance their educational experiences and foster a sense of community.

MOST PROUD OF

My Academic Performance

I always strive to give my best in everything I do. My goal is to excel academically so that I can take advantage of favorable opportunities to advance my career. I work hard to maintain my grades, and I am extremely proud of my efforts. "Today is your opportunity to build the tomorrow you want

Code for Good 2024

I'm proud to have been a finalist in the Code for Good Hackathon 2024, organized by JP Morgan and Chase. I dedicated extensive effort for this hackathon and achieved it through my own hard work and determination. This achievement is particularly meaningful to me, as it reaffirms my strength and resilience in overcoming challenges on my own.
